SUMMARY

Software engineer with a penchant for problem solving and constructing applications. Fluent in English and Amharic with excellent communication and interpersonal skills. A fast learner with analytical mindset and strong work ethics in teams or individually to accomplish goals set. Focusing on Javascript for building web applications and products using related frameworks and finding the optimal solutions for problems. I seek a role as a software developer at a company where I can learn, grow, and continue to master the craft.

SKILLS

Tech Skills: HTML | CSS | Python | JavaScript | JQuery | NodeJS | Django | Express | Bootstrap | MongoDB | Postgresql | React

SOFTWARE ENGINEERING EXPERIENCE

Software Engineering Immersive | General Assembly | Remote   March 2022 - June 2022
Successfully completed 500+ hours of expert-led instruction in the fundamentals of software engineering, working with different web development tools and hands-on learning of programming languages fundamentals and the industry's most in-demand technologies. Developed projects, include:

- [Vintage Simon Arcade](#): based on the Simon says game, built using Vanilla JS, basic css and a simple html file. As a first project, it was an intro to coding and a big moral boost to be dedicated to programming.
- [Confessions/Social Healing](#): a website where one can share their secrets and be anonymous, built using MongoDB, Express and NodeJS. A group effort to create a website where all members have to contribute and stand firm to complete the project.
- [Rick and Morty](#): a website that provides information about the characters from the Rick and Morty show. built using React and The Rick and Morty API. It was a great project for practicing Bootstrap and it is hosted on Netlify.
- [The Parley Blog](#): a blog publishing website built using Django/Python intended for the reader and writer.

PROFESSIONAL/WORK EXPERIENCE

Chipotle   December 2017 - April 2018
Staff Member, Navy Yard, Washington, DC
- Prepared food items in the required amount and in a timely manner for different shifts.
- Maintained a clean work space and utensils at all times to prep the work space for the morning shift.

Save The Children   March 2019 - March 2019
Fundraiser, Washington DC
- Facilitated discussions with people face to face, managed to collect donations for the organization.
- Explain the donation process through one-on-one and group conversations to gain client's trust and resulting 30% to 50% increase in donations each week.

East Over INC.   December 2019 - January 2022
Customer Service/Clerk, P.G County, Maryland
- Maintained and managed the store during multiple shifts as a sole clerk and satisfied customers as their orders were always accurate.
- Trained 8 trainees to take on the same responsibility as their positions and shifts required to ensure all trainees were abreast of the store's policies and procedures.
- Managed the stocking and receiving items weekly and making sure that no damaged items or short count go unnoticed.
